

## DEATH DUE TO HEART FAILURE

So Many Contend, in Unfortunate Case of Leo Prendergast.

## NO MARK ON HIS BODY

Funeral Services Will Occur Saturday Morning at Catholic Church.

The remains of Leo Prendergast, the unfortunate young man who lost his life yesterday in the I. & C. car barns in Shelbyville, were brought to this city last night about ten o'clock on the traction line and taken to his home west of this city. His sisters and brothers, who live in various parts of the country, were apprised of the sad accident late yesterday afternoon and in all probability will be here to attend the funeral.

Prendergast left here yesterday morning to work on the Phil Wilk cement floor contract in the car barns.

He was accompanied by John Dawson, of this city. They did not go to work until 10 o'clock and at 11:50 o'clock Prendergast was a corpse, after working little less than two hours.

The men were engaged in making excavations for the cement pits which are used by the workmen to stand in while repairing and cleaning the machinery underneath the traction cars. Prendergast had just remarked to Dawson, who was in the pit with him that it must be about dinner time. This sentence was followed by a piercing cry. Turning, Dawson saw that Prendergast had fallen in the pit and both hands were on his knees. He soon was at the side of the lifeless body. Physicians and workmen were summoned and the unfortunate man was lifted out of the pit. His body was in no manner burned, showing little evidence that he had been electrocuted, and several of the workmen about the place contended that it must have been a case of heart failure.

Since the high tension voltage has been turned on from this city, the power of voltage in the car barns has been reduced from 650 volts to 550 volts. Many of the workmen have received this amount of voltage, and never suffered any ill effect from it. In fact any man who has worked around electricity long runs against 500 volts often. There was a wire with a voltage of 550 running along a support beam near the pit, and it is thought by some that Prendergast either touched or rubbed against this and owing to the dampness of the pit in which the young man was working it made him an easy victim.

Coroner Bass was summoned from Morristown, and made a preliminary investigation into the causes leading to the death.

Speaking of the lamentable death last night, Rural carrier Aultman said that he carried the letter Saturday, which summoned Prendergast to work, and resulting in his untimely death. Mr. Aultman remarked that that was one letter which he wished he had lost.

The young man had innumerable friends in this county, and the news of his death came as a shock to them.

LATER—Coroner Bass, of Shelby county, came here today to hold an inquest on the body of Leo Prendergast. Prendergast's folks objected, seeing no cause for such action, and the coroner returned home.

It is understood that Coroner Bass was of the opinion that Prendergast died from heart failure. Several witnesses were examined yesterday, and everyone said that Prendergast was not near any wires, and could not have been electrocuted. There were no burns or marks on his body save a little bruise on one thumb.

William Redman, who was working with Prendergast said the young man was overcome with heart failure, and could not possibly have been killed by electricity, as he (Redman) had taken out the wiring of the place, and had handled them without receiving any shock. The body was found, with

the hands on the knees, and Prendergast was not holding a wire as reported.

Funeral services will be held at St. Mary's Catholic church Saturday morning at nine o'clock, Rev. W. J. Cronin, officiating.

## CHARLES FRAZEE MAY MOVE AWAY

Has Tempting Offer From a Wealthy Man to Conduct Minnesota Farm

Charles A. Frazee will leave for Decatur, Illinois, Friday where he will confer with Dorval E. Brooks, a millionaire of that city, who has holdings all over the country, relative to moving to Minnesota, where he would conduct a large farm belonging to Mr. Brooks.

Mr. Brooks was in this city a few weeks ago, when he made Mr. Frazee a most tempting offer. After considering and deliberating over the matter thoroughly, Mr. Frazee has become favorably impressed with the proposition, and is seriously thinking of removing to Minnesota at once to take charge of the farm.

The farm is located in the black dirt district and is one of the best in the State. It is two miles long and one mile wide, containing 1280 acres. The place is well improved, having an eight-room house, large barn, an artesian well, well stocked and equipped with the very best of modern farming implements and machinery.

The many friends of Mr. Frazee—or rather Charley Frazee—would regret to see him move away, but the management of the large farm carries with it a guarantee in the way of an annual salary, and is an excellent opportunity for a young man. Charley has been Republican County Chairman of this county for several years, and in a political way, he will be sorely missed, for he has proven himself an efficient chairman in every respect. He has staunch friends in both political parties, and this is a strong asset for a county chairman.

If suitable arrangements can be made he will sign a contract Friday to remove to the Northwest.

It would be well at this time to chronicle a deal which Charley made this week, that was enough to disgust a man with any community and drive him out of the State. He had two cows taken to the Percy Walker sale Tuesday to offer them for sale. He sold one of the cows, but later bought it of the purchaser, giving him one dollar above the sale price. He had paid a man seventy-five cents to drive the cows out to the sale and he was obliged to pay him seventy-five cents to drive them home again. Besides losing the entire day, he also lost \$2.50 in bringing the cows to the sale. This would drive some men farther than Minnesota.

## SAM MULL WILL NOT STAND A MOTHER-IN-LAW

Sam Mull was around town today, and says he is about through chasing the rainbows of youth and beauty declaring that his proposed marriage must be treated in a serious manner. He says he tires of reading "flap-dabble" letters from burning hearts, for when he investigates, nine times out of ten, the writer is a cranky widow, or a love sick old maid. He declares that he will not stand for a mother-in-law, no matter what comes with it.

## AN OLD AND DEAR FRIEND GOT IT IN THE NECK

All over Rush county today the sad rites were said over Mr. Turkey Gobbler.

Today saw the last chapter of a glorious career that began for Mr. Turkey months ago in the barnyard, and ended where his neck met the meat axe. Everybody apparently is going after him with knives and forks and what is left of him will be made into hash or stew tomorrow.

It's the last "gobble of the gobble" until Xmas.

## GRAFT IS SURE ON THE WANE

So Declares Dr. V. W. Tevis in a Thanksgiving Sermon this Morning

## THANKFUL FOR MUCH

"No Cloud on Our Sky Today and Peace Reigns Everywhere"

Union Thanksgiving services were held at St. Paul's M. E. church this morning. Rev. T. H. McConnell and Rev. W. P. McGarey conducted the religious services of the meeting and Dr. V. W. Tevis delivered the Thanksgiving sermon.

Anthems were sung by the church choir and all assembled joined in singing hymns of thanksgiving and praise.

The doctor delivered a strong sermon, appropriate and strictly in keeping with the occasion. He chose for his text, "The Lord Thy God Blesseth Thee," and he said in part:

Thanksgiving is the acknowledgment of the blessings received and the appreciation of them. If this service is to be personally profitable it must appeal to us as individuals. We sometimes look upon a national thanksgiving as a thing apart from us. The President and his law makers attend to the business affairs of the nation and we are content to have it so. But for the perpetuity of good government it is necessary for each citizen to feel a personal interest, and to loyally manifest it on all occasions.

These merely represent you. Each law was made with your personal welfare in view as a private citizen. And whatever benefits the private citizen benefits the nation. Hence conversely, whatever benefits or blessings may have fallen upon the nation, have fallen upon you as individuals. Therefore even a national thanksgiving is an individual matter.

The spirit of Thanksgiving is appreciation and gratitude; and appreciation and gratitude expressed. He appreciates most, who has learned the proper valuation to be placed upon specific blessings. The value of a blessing is personally fixed in us by an experience with its antithesis. Poverty, wealth; sorrow, joy.

Hills appear as vast mountains to long dwellers upon the plains. Mountains shrink after months of dwelling among them. It is difficult to weigh blessings and institute a comparison of relative valuations. Each occupies its own unique sphere.

Pounds and ounces will weigh concentrated sweetness, but cannot measure the grateful fragrance of a peach orchard in bloom. But of all blessings that of peace stands in the forefront, better than wealth. Peace and a sufficiency vs. wealth and war. None know its value like those who have passed through conflict. Our old soldiers, still amongst us with the scars of war are yet vivid.

But today no storms shake our sky. Our flag floats undisturbed; our gunners practice with inanimate targets. Roosevelt addresses any nation where he happens to be as "fellow citizens."

But our young men must be taught that trained hands bring results. Pernicious training—What is your son being taught to do well? How will he make a living when you are gone? The trades are all open and skilled workmen never want for work nor the highest wages.

Next to peace we are to be congratulated on the prevalence of a lofty moral sentiment in the nation. This past year has witnessed many a victory for morals and clean government.

There are the insurance exposures and renovation,—graft exposed everywhere. New York is to be congratulated on the election of Hughes, a man of character and strength, progressive, yet conservative. Graft is becoming more unpopular and is on the wane.

The country is demanding that men in authority have clean hands and the law be fearlessly executed. The moral thermometer is rising everywhere. Cities that never before did it are putting

ting the lid on. The temperance sentiment is on the increase. In politics, to be known as the member of a corrupt ring is fatal. And why not?

This nation survives and maintains her prestige among the races of the world, only as she obeys the voice of God. Some nations are wrecks upon the sea of oblivion. Rome fell under a bloody and tyrannical Nero, and history points out many parallel cases. We have unparalleled prosperity, abundant harvest, work waiting for the workmen, and good wages everywhere.

Blessings have fallen upon our homes, and we have health, wealth and happiness, and God dwells therein. Many a royal personage would gladly trade his crown for the rosy cheeks of a peasant girl. What a blessing is good health! It means enjoyment and nature is full of it to the well man. It means power of appropriation.

Then let us take our educational advantages. The times demand a high polish and the country meets that demand in its free school system. Think of the marvelous changes wrought in the past few years along this line.

Look at our unbroken family circles—sweet peace—domestic security. He is to be congratulated, who has a lovely wife and children, health and employment. Heaven is near that home where songs of gladness makes holy every hour.

Blessings have fallen upon the church and he has made marvelous strides. Religion embraces every invention and discovery and presses it into service to aid in the world's salvation. Today there is more money given for churches and church work, more money for charities and other deserving works. What would the nation do without religion?

In conclusion Dr. Tevis spoke of the demonstration of gratitude. He said: "By doing something in the name of the Giver." "Ye have done it unto Me." "The poor ye have with you always." Let our songs of gratitude rise triumphantly today. Let us prize our heritage. But let us go out from here today resolved to perpetuate the prosperity which comes to the people of God by good citizenship, and especially loyalty to the banner of Christ. Thus shall our nation endure, our homes and happiness be secure and our prosperity abide.

## YOUNG ATTORNEY ADMITTED TO BAR

Prof. A. E. Martin Goes in For the Law—Has Many Good Qualities

Prof. A. E. Martin was admitted to the Rush circuit bar yesterday. Mr. Martin has been studying law in Watson, Titworth & Green's office for several months, since taking up his residence in this city.

He came here from Corydon, where he was superintendent of schools for two terms, and presided over the institute of that county for two years.

Mr. Martin is a graduate of Earlham College, and the work which he has been doing for years has fitted him in an indirect way for the law. He is a forcible and eloquent speaker, and a deep and profound thinker; a good mixer possessing a great deal of personal magnetism and having a good appearance he has all the earmarks of being one of the coming barristers of the county. Mr. Martin has made an unusually large number of friends the short time he has been in this city.

He is a married man and lives on North Harrison street. When the Presbyterian Brotherhood was organized in this city recently, Mr. Martin was honored in being chosen as president of same.

The members of the bar welcomed him into their midst. He will be "at home" with his shingle out in the Watson, Titworth & Green law offices.

Phosphorescent Rats. A new species of rats has been discovered in South America that have phosphorescent skins, which burn with a terrifying greenish glare at night. In the daytime they look like the ordinary rodent.

## LARGE CLASS IS INITIATED

Two Hundred Woodmen With Their Axes Attend Meeting Last Night

## BANQUET WAS SERVED

Milroy Team, Under Chief Forester Richey do Excellent Work

Over two hundred Modern Woodmen from all parts of the county and from neighboring towns attended the initiation of one of the largest classes ever taken into a fraternal organization in this city.

The work of recruiting this class is little short of phenomenal, and Special Deputy Young has proved himself a past grand master in the art of "candidate getting."

The work of the Milroy degree team was the best ever seen in this city; the oyster supper was fine, the attendance was large, the enthusiasm great, and taking it all around everybody had a lovely time.

State Deputy S. G. Fitch was present, made an address and assisted in the work, as did William Pollard and James B. Wright, of Indianapolis.

The following program was carried out:

7:30 p. m.—Address on Woodcraft, by Wm. Pollard, of Indianapolis.  
8:00 p. m.—Address, "The Advancement of Woodcraft," by State Deputy S. G. Fitch, of Columbus.  
Beneficiary and Fraternal Degrees, by Milroy Foresters.  
12:00 p. m.—Oyster Supper at the Knights of Honor Hall, served by John Conroy.  
12:30 a. m.—"The Finishing Touches"

The following officers and members had charge of the exercises last night: Special Deputy, G. A. Young; Venerable Consul, Al. G. Robinson; Worthy Advisor, W. H. Young; Banker, M. V. Spivey; Clerk, John P. Stech; Escort, W. F. Jackman; Chief Forester, E. F. Wilson.

Board of Managers—W. H. Young; E. A. Caldwell; W. L. West, Jr. Banquet Committee—Geo. A. Young, Walter West, Jr., John W. Hatfield.

## SECEDERS WILL BUILD CHURCH

Car Load of Stone is Hauled to the John Leisure Farm

Word comes from the Hannegan church neighborhood to the effect that those members who were locked out of the church and refused to be allowed to worship there over a controversy regarding having an organ in the church, will build their own church. Last week a faction headed by John Leisure purchased ground for a cemetery, and now a contract has been awarded for the erection of a church on Ewing's corner, on the John Leisure farm. Nearly a car load of stone has been hauled to that place and the work of building the seceders church will begin at once.

## MAY CHALLENGE THE CONNERSVILLE TEAMS

The basket ball teams of this city are thinking of issuing a challenge to the Connersville team, and play a series of games here and in that city. The traction line would be a convenience for the playing of such a series. It is understood that several of the young men here have become experts at that game.

## THANKSGIVING EVE WEDDING

Was Solemnized Near Gings, Last Night—Many Were in Attendance

One of the prettiest weddings of the late autumn was celebrated Thanksgiving eve, at the home of Mr. and Mrs. Joseph S. Vandament, near Gings.

Their older daughter, Miss Mary, one of Union township's most popular young ladies, and Mr. Jesse B. Gilson, a prominent young farmer, of Center township, were the contracting parties.

The ceremony was performed by the Rev. E. S. Connor, of Knightstown, in a very appropriate and most impressive manner.

Miss Avie Austin, of Gings, played Lohengrin's wedding march as the bride and groom marched into the room, where the marriage was solemnized.

The bride was attired in a pretty white dress and the groom wore the usual black. About fifty invited guests were in attendance. After the ceremony a wedding dinner was served. Many nice presents were received.

Among the guests were: Mrs. Belverence Vandament, Lewisville; Mr. and Mrs. J. L. Newkirk and daughter Myra, Mr. Jesse Brooks, Sexton; Mrs. Polly Newkirk, Mr. and Mrs. R. E. Zorne and Gale Alexander, Mr. and Mrs. Dan O'Keefe, Nellie and Ruby McMillin, Ola, Myrtle and Fannie Hires, Lewis Bell, Avie Austin, Lela Kiser, Hazle, Hinchman, Nellie and Iva Ormes, John McCulloch, Mr. and Mrs. Orlando Randall, Gings; Mr. and Mrs. John B. Gilson, Mr. and Mrs. Roy Bitner, Mr. and Mrs. Carol Williams, Knightstown; Mr. and Mrs. Frank Ward and family, Mr. and Mrs. Bert Benson, Connersville; Miss Mabel Burns, Milton; Mr. and Mrs. Albert Benson, Falmouth; Miss Errol Vandament, Greensburg; Chas. G. Newkirk, Mr. and Mrs. Walter E. Smith, Rushville, and J. Minor Bell, Indianapolis.

## GOOD PROGRAM AND RARE TREAT

Was the Concert Given Under the Auspices of the Musicales

The faculty of the Co-Operative School of Music of Indianapolis, under the auspices of the Ladies Musical gave splendid concert Tuesday night in the assembly room at the court house. Every one of the members of the concert company were finished artists, and the frequent applause of those assembled testified their approval. A large representative audience greeted these talented people and every one pronounced it a rare treat. Rushville should have more entertainments of a like character, and there is enough cultured people here to support concerts of this sort, as was evidenced by the large attendance Tuesday night.

## PUTS THE DAMPER ON THE "IN AND OUT"

A decision handed down Tuesday by Judge Myers of the Appellate court, has created interest in every county seat in the State.

On a case coming up from Delaware county it was decided that sheriffs were not entitled to "in and out fees," that is 25 cents for every prisoner received at or discharged from the county jail.

This is a common practice and heretofore has been considered a legal fee. The Supreme court may reverse the decision made Tuesday.

## SOME GORGE OTHERS STARVE

One Ought to be Thankful for the Food, the Other the Appetite

## EXCELLENT SHORT SERMON

By a Philosopher Who Looks on the Bright Side of Things

Taking the world altogether, says S. D. McConnell, in a current publication, it never has more than about three months' provisions of grain in its garner. The failure of a single harvest all over the world would depopulate the earth. It has never enough laid up at any one time to keep it from starving during the ensuing four months. It would seem to be evident that God does not intend that men should become independent of Him. He feeds them from time to time as they may need. [He does so by the continual recurring succession of seed-time and harvest.

God's provision for man has never ceased to be a fact. Harvests have failed here and there. Droughts have oppressed in this place and that. Famine has paid visits. But take it altogether, seedtime and harvests thus far, have not failed. At any rate, they have never failed to such an extent that the provisions accumulated in the world's storehouse have not been sufficient to tide it over. Man's table has been spread with abundance. His larder has been kept filled.

The problem which is being considered and discussed more than any other in our generation is that of "the distribution of wealth." The feeling is widespread that it isn't properly apportioned. There is no question of its abundance. The banquet of life is bountifully spread, but it is said that "one man gorges himself, while five men cannot secure places at the table."

The problem is, how to distribute God's bounty? The first condition to its solution is that men shall recognize that the good things of life are God's bounty. "Labor" so fond of saying: "We create wealth by our hands, therefore it is ours." "Capital" is fond of saying: "We create wealth by our brains, therefore it is ours." They are both wrong.

Neither of them create wealth. It is poured out from the bounteous hand of God. If it be objected that this is introducing the religious sentiment into a purely material problem, I reply the problem never has been solved, never will be, except as this sentiment is satisfied. Said Mr. Lincoln: "Nothing is ever settled until it is settled right." The reason is, right is the most imperious force in God's universe, for it is God Himself.

It will overturn and overturn until He comes Whose right it is to reign. Only in proportion as men realize that they are all alike children seated at their Father's table will they cease to snatch, and will begin each to serve another before himself.

## FLOWER CITY WILL ACT AS HOST SOON

At a date in the future a special train is to be run to New Castle from Tarrytown, N. Y. The purpose of running this train is to bring there the large number of employees of the Maxwell-Briscoe Automobile Company, who will come to inspect the town before with their families.

The employees will be given a royal reception and shown the town completely. The date of the special is as yet not known, but it will in all probability be run before winter sets in. It will be a big day in New Castle.

**A STATE MOVEMENT**

Has Been Inaugurated to Bring Railroads to Terms.

Indianapolis, Ind., November 29.—The refusal of some of the railroad companies in Indiana to work in harmony in moving freight and the inability of nearly all of them to handle promptly the business offered them, has resulted in a movement for a state meeting here early in December to devise ways and means of obtaining laws under which the railroads will have to furnish adequate facilities. Invitations are to be extended to coal operators and dealers, manufacturers, grain dealers and all others who have been handicapped by lack of transportation facilities. The manufacturers in the gas belt are on the verge of a fuel famine because of an embargo the Southern Indiana and Evansville & Terre Haute companies have placed against the Big Four. Unless relief is obtained within a few days many factories will be closed down. Coal operators are helpless, owing to the refusal of the coal carrying roads to work together in getting the fuel to market. The railway commission is powerless under the present laws. Grain dealers are said to be in almost as bad shape as the coal men, as they are unable to get cars. The Indiana Manufacturers' and Shippers' association, formed at Anderson this week, has taken the initiative in bringing about a state conference.

The action of leading negroes here in condemning President Roosevelt for discharging three companies of colored soldiers is causing much concern among the Republican politicians who have not been accustomed to anything but extreme loyalty and humility from their colored allies. They are beginning to wonder whether a seed of discontent has been sown that will bear fruit against them in the next campaign. During the last few months there have been signs of a revolt among the negroes here against the tactics of the local Republican bosses. The negroes complain that the party has not done anything for them when it came to a distribution of the patronage. The negro politicians have been "getting wise" to the attitude of their white Republican associates in this city, and in the recent campaign they refused to "stand hitched" as they have in former days. The result was that the Republicans lost hundreds of votes and were unable to elect their entire ticket. A majority of the white men have been voting the Democratic ticket here for many years. Now that there are open signs of discontent among the negroes the Republicans are feeling alarmed. It is understood that they will take whatever steps they can to get the negroes back in line during the next two years, but it is likely that the negroes will have to "be shown" before the Republicans will get as much out of them as in former days.

Senator Charles Roemler's primary election and registration bills promise to cause a lot of excitement during the legislature, as they aim at the very existence of party machines. If his plans are adopted there will be a general primary for the election of United States senators, members of congress, governors, state officials and probably a few of the county officers and members of the legislature. Direct election of United States senators cannot be accomplished without a change in the United States constitution, but Senator Roemler will advocate a law which the party will vote on the senatorial candidates by primary. Then the legislature can elect whoever is designated by the primary. Senator Roemler also plans a registration law that will eliminate the corrupt methods of voting repeaters and probably result in better men

being nominated. There will be a conference here next week of members of the legislature and prominent attorneys to consider the bills he is preparing.

Chairman James P. Goodrich of the Republican state committee was here yesterday attending a college fraternity meeting. He has been very sick since the close of the campaign, and this was the first time he had ventured to Indianapolis. He is working out a bill for a public depositories law. Chairman Goodrich is well informed on the subject, as he has made a very careful study of it. He intends to present his ideas to the members of the legislature with the view of obtaining the enactment of a practical law on the subject.

**They Made Too Much Noise.**  
Noblesville, Ind., Nov. 29.—The safe in the meat market of Worthington brothers was wrecked by an explosion of nitroglycerine by two burglars. The noise of the explosion awakened the people in the neighborhood, and the robbers were frightened away. They obtained only \$2 for their trouble, and this was from the money drawer.

**Despondent Woman's Suicide.**

Pittsburg, Pa., Nov. 29.—Mrs. Addison H. Gibson, forty-one years old, wife of a wealthy oil operator of this city, was found dead in her house, where she had committed suicide. Mrs. Gibson had been ill for some months, and of late had been despondent. She had shot herself twice and had also taken a quantity of arsenic.

**A Sensible Decision.**

New York, Nov. 29.—The efforts of William H. Maxwell, superintendent of public schools, to have simplified spelling introduced into the public schools of Greater New York were defeated at a meeting of the board of education. Thirty-two commissioners voted against him and only four were with him in favor of simplified spelling.

**Due to Broken Gas Main.**

Peoria, Ill., Nov. 29.—A fire in the heart of the business district of this city did \$84,000 damage, covered by insurance. The fire originated in the fourth floor of the Day Furniture and Carpet company. The entire stock of this building was destroyed by fire and water. A broken gas main is believed to have started the blaze.

**Major on the Carpet.**

Washington, Nov. 29.—The war department has called on Major Penrose of the Twenty-fifth regiment at Fort Reno for an explanation of the statement alleged to have been made by him in a newspaper interview to the effect that the dismissed battalion of that regiment was the best battalion in the United States army.

**More Balkan Troubles.**

Belgrade, Nov. 29.—A telegram received here says that a band of Bulgarians have burned two Serbian villages, Dovesenke and Balvakomzer, in the vilayet of Uskub, killing fourteen persons, mostly women and children, and wounding many others.

**Arrest of Mayor Schmitz.**

Truckee, Cal., Nov. 29.—Mayor Eugene E. Schmitz of San Francisco, who with his wife is returning from a trip to Europe, was arrested here by Deputy Sheriff Knox on a charge of extortion found by the grand jury in San Francisco.

**COAL LAND FRAUDS**

**Startling Evidence Presented In the Hearing at Salt Lake City.**

**AN OFFICIAL SCANDAL**

**Persons High in Place in the Government Are Mentioned in a Most Sensational Way.**

**It Is Charged That the Land Department at Washington Has Suppressed Evidence.**

Salt Lake City, Nov. 29.—It is said that the federal grand jury which has been investigating coal land frauds has voted several indictments, which will not be returned until after the close of the investigation being conducted by Edward B. Clark, interstate commerce commissioner. F. M. Allison, attorney for the Rio Grande system, in arguments before Commissioner Clark, charged that most of the testimony being brought out was for the purpose of influencing public opinion against persons who might be indicted by the jury. Sensational testimony was given by Michael A. Myendorff, a special agent of the government, who began an investigation of the coal lands frauds in Utah and who before he had completed his investigations was transferred to London and then to Portland. Mr. Myendorff presented an affidavit in which he told of efforts made by influential men to induce him to cause his investigation of the coal land frauds. He named Senators Warren and Clark of Wyoming, Commissioner Richards of the general land office, and G. F. Pollock, chief of department B, interior department, Washington. He alleged that in Denver Senator Warren told him he ought not to go after the Union Pacific and incur the enmity of that company. He charged that the land department at Washington had suppressed evidence secured by him. In two charges which he filed against Robert Forrester of the Utah Fuel company, a Gould corporation, he alleged no action was taken. The witness further alleged that George F. Pollock, chief of Department B, interior department, instructed him to destroy four affidavits which he had secured against the Union Pacific Coal company. Mr. Myendorff's affidavit goes at length into the methods of the coal company in securing coal lands by entries through dummies who transferred their rights to the corporations.

When Commissioner Clark resumed his investigation yesterday Attorney Allison made the request that H. G. Williams, general manager of the Utah Fuel company, a Gould corporation, be summoned as a witness. Mr. Allison stated that the chairman of the interstate commerce commission in Washington had communicated with Mr. Williams' superior officer in Washington and asked that Mr. Williams testify. J. T. Marchand, who is conducting the government's case before Mr. Clark, flatly refused to examine Mr. Williams, stating that he did not propose to render Mr. Williams immune to future action. At the request of Mr. Marchand, Commissioner Clark also excused from giving testimony at the present time Frank B. Cook, a mining operator, and W. D. Foster, secretary to Robert Forrester, a geologist in the employ of one of the coal companies under investigation. It was stated that these men would be asked to appear before the grand jury.

Myendorff's affidavit alleges that on one occasion seventy-seven men were taken into offices in the union station at Denver before W. I. Gofford, agent of the Union Pacific, and signed their names to "powers of attorney, relinquishments and affidavits which were used to acquire title to coal lands in Wyoming. Some of these men, it is asserted, signed fictitious names. The men who signed received \$4 each for their trouble. The Myendorff affidavit included affidavits made by a Denver saloon keeper named Bartello, and Victor Lebaud, an expressman of Denver, stating how a wagon load of these men had been picked up on Seventeenth street in Denver and driven to the offices in the union station. After they had signed the papers Bartello collected \$1 from each man for his trouble in getting them together, each man retaining \$3.

In his references to Senators Warren and Clark the affidavit states that on one occasion when he met Senator Warren in Denver the senator produced confidential letters which Myendorff had written to the land commissioner in Washington and read extracts from them. Myendorff alleged that it was represented to him that to stir up the Wyoming coal lands matter at that time would incur the enmity of the Union Pacific interests and prevent the re-election of Senator Clark. Myendorff alleged that he was removed from Denver in 1905 as a result of his activities, and that pressure was brought to have the matter of the Wyoming lands turned over to Inspector O'Brien of Denver, whom the affidavit described as a confidential friend of Macey, chief clerk of the department at Washington, and also a personal friend of Senator Warren. Senator Clark also, he alleged, wanted O'Brien detailed on this work.

Counsel for the Union Pacific moved that all the matter contained in the

affidavits be stricken out, but the motion was overruled and the affidavits will be included in the report to congress.

Colonel P. S. Sowers, a special agent of the land department, was again called as a witness, and told of his inability to induce the land department to act in matters relating to coal lands. Witness told of numerous letters written to the land commissioner and of the submission of affidavits bearing on land frauds, and suggested that investigations be made, but his letters were not answered. In November, 1900, he reported in relation to the lands which eventually were transferred to the Pleasant Valley Coal company, a Gould corporation. Witness testified that he had recommended action against Robert Forrester, geologist of the Pleasant Valley Coal company, but was informed by the department that the facts did not warrant prosecution. Following this, in January, 1905, he testified that he was asked by the department to tender his resignation. In response he wrote to the commissioner of the general land office calling attention to the gross laxness in probing the coal land scandals in Utah, but he received no reply. Sowers resigned, however, but later was reinstated, he testified, at the request of George A. Sutherland, then attorney for the Pleasant Valley Coal company and now United States senator from Utah.

**Over Scandals in Connection With Famine Relief Fund.**

St. Petersburg, Nov. 29.—The recent exposure of gross irregularities in the matter of the disbursement of government relief in the famine stricken provinces, coming as it does at a time when harrowing descriptions of the sufferings of the starving are reaching St. Petersburg, is threatening to result in a big scandal which may involve a member of the cabinet and which, it is believed, will have influence in the coming elections. The Novoe Vremya, the most influential newspaper in the capital, has taken the lead in the agitation, and with great indignation it hurls the reproach that the funds for relief voted by parliament have been misused. Blame-worthy negligence and delay have been exhibited, the paper charges, while the lives of many thousands were in peril. The affair developed into a sensation of the highest order when it was reported that the council of ministers which met yesterday had summoned Assistant Minister of the Interior Gurko and demanded an explanation of how the relief funds were expended. M. Gurko, it is said, heatedly refused to reply and retorted that he would explain only to the emperor.

**How It Happened.**

Washington, Nov. 29.—A dispatch received at the war department from Governor General Smith of the Philippine Islands, says that the deaths of ten Bilibid prisoners inoculated with anti-cholera serum are believed to have been caused by the act of a visitor in displacing a bottle of plague culture with the anti-cholera serum. The dispatch adds that further inoculations have been prohibited until examination and tests of serum are made.

**Monster Merger Planned.**

New Orleans, Nov. 29.—Plans to form a \$28,000,000 merger of Louisiana sugar plantations and sugar houses are announced by a committee in charge of the project. The Leon Godeaux company, owning several of the richest plantations in the state, is one of the backing interests. The plans contemplate centralizing management of the plantations, centrally located sugar houses and erection of a refinery at New Orleans.

### TOBACCO SECRETS.

What Makes the Chico One of the Mildest and Most Enjoyable Cigars on the Market.

How many people, even among the most confirmed smokers, know what constitutes the difference between a strong and a mild cigar? It is simple enough. The strong product is so made that it burns badly, while a mild cigar is one that burns well—like the Wadsworth Bros.' Chicos.

"These cigars," says Thos. W. Lytle, the local agent, "are made from a long Havana filler, carefully selected, with the best hand workmanship, and they burn freely with a firm, perfect ash, the result is a mild, pleasant and enjoyable smoke."

Six months ago the Chico was not known in Rushville, but to-day it is the most popular cigar in the city, and is the favorite although it sells for but five cents. Smokers who have heretofore wanted only ten or fifteen cent goods should step into Thos. W. Lytle's Drug Store and get a few Chicos. We know you will say, as do other fastidious smokers, that it is the mildest and most enjoyable cigar in the market.

## IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Trouble.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Brights disease. The best remedy to use is Doan's Kidney Pills. It cures all the ills which are caused by weak or disordered kidneys.

Thomas Kennedy, of 246 Meridian street, Shelbyville, Ind., employed in the furniture factory, says: "Three or four years ago I began having rheumatic pains in my hips. It would wear off at times, but any slight cold brought it on again. I commenced to have lameness in the small of my back, a bad feeling in the top of my head, and kidney secretions became unnatural and irregular. I procured Doan's Kidney Pills at a drug store, and they banished the trouble I have mentioned. I can confidently recommend Doan's Kidney Pills to others suffering from backache or other kidney complaint.

For sale by all dealers. Price 50 cents. Foster-Milburn-Co., Buffalo, New York, sole agent for the United States.

Remember the name—Doan's—and take no other.

### OUT OF SORTS

People Not Really Sick are Often Most in Need of Care

The people who actually are most in need of kind words and medical treatment are not those who are really sick, but just "out of sorts."

The old-time energy, force, strength and happy spirits are lacking; the physical and mental powers are flagging; there is poor appetite, and they cannot get the good out of the food they eat. In nine cases out of ten, this results directly from a weakened stomach, and no other treatment equals Mi-o-na to restore life and health.

When the nerves and muscles are weak, if there is sleeplessness, irritability, and specks before the eyes, pain in the head aches and there is a dull pain in the back, and there is any distress and heaviness in the stomach, dizziness and sometimes nausea, the use of Mi-o-na stomach tablets for a few days will make a world of improvement, and continued use for a reasonable time will restore perfect health.

These tablets are not mere digestives; they absolutely strengthen all the organs of digestion, so that there is good appetite, perfect digestion and strong nerves, when they are used.

A large box of Mi-o-na stomach tablets is sold for 50 cents by F. B. Johnson & Co., with an absolute guarantee that they will be successful in curing digestion and restoring health, or the money will be refunded. Ask them to show you the liberal guarantee they give with every 50-cent box of Mi-o-na.

If you are a sufferer from acute, chronic, inflammatory or sciatic rheumatism or lumbago, call at Lytle's or Johnson's Drug Store for a sample of Penn Rheumatism Cure.

**The Safest and Best Remedy.**

We guarantee Penn Rheumatism Cure will cure all forms of rheumatism, if curable. We do not wish to be understood by this that we can make crooked limbs straight or cure in 24 hours. WE DO CLAIM that after an experience of over 60 years by eminent physicians in the special treatment of rheumatic cases that **PENN RHEUMATISM CURE** will help you almost from the beginning of the treatment, but if your case is chronic, you must expect to take it for several weeks to get the full results.

**PENN RHEUMATISM CURE** is an uric acid destroyer, absolutely harmless and entirely free from opiates, iodide of potash or mercury, and is a strong tonic, building up the weak and debilitated.

We are so confident of the great and inestimable value of our Rheumatic cure that we have taken this method of giving absolutely free to every sufferer in Rushville a generous sample box, amply sufficient for an honest test.

This is the opportunity of your life, if you are in need of such a medicine. Do not hesitate to call through any false pride. You are under no obligations whatsoever to purchase one cent's worth. All we ask of you is a fair, honest test of this great and invaluable remedy.

**REMEMBER** Messrs. Lytle and Johnson will give away 500 boxes. Do not delay if you do not wish to be disappointed. They will be given freely, one to each adult, so long as they last. Yours for health,

## NEGRO FOLKLORE AND OLD MELODIES

Given By Wednesday Evening Club—George Payne, Darkey Par Excellence Present.

The Wednesday Evening club met last night at the residence of T. M. Green. The subject was a musical one, on Negro folk lore and plantation melodies. The subject was illustrated by the rendering of negro melodies, sung by a quartette, composed of B. F. Miller, T. A. Craig, F. R. McClanahan and E. E. Thomas, and solos by T. H. McConnell, Judge Will Sparks and Dr. Tevis. The following is the program:

Swanee River, quartette.  
Nelly Was a Lady, quartette.  
Piano Solo, by Judge Sparks.  
Massa's in de Cold Ground, quartette.  
Solo by B. F. Miller.  
Honey, quartette.  
Solo, by T. A. Craig.  
Old Black Joe, quartette.  
Piano Solo, by Dr. Tevis.  
Lilly Dale, quartette.  
Solo, by T. H. McConnell.  
My Old Kentucky Home, goodnight, quartette.  
Mr. George Payne, the darkey par excellence, was present and gave a real southern typical negro melody.

### RECALLED FIVE TIMES

New Yorkers Apparently Willing to Accept Caruso.

New York, Nov. 29.—At the Metropolitan opera house last night Enrico Caruso was given a cordial reception at his first public appearance since his recent conviction in a police court on the charge of annoying women in Central park. The attitude of the audience was accepted by the tenor's friends as a public vindication. There

ENRICO CARUSO.

had been much speculation as to how the singer would be received, and some little fear of a hostile demonstration. To quell the latter the house had been picketed with police, the interference of which, however, was not required.

When the curtain rose on the opening scene the great audience sat as nearly silent as the rustle of belated entries and the scurrying of ushers would permit. But no sooner had the curtain revealed the tenor than a short volley of handclapping intermingled with loud cheers broke from every part of the house with the exception of the lower tier of boxes, very few of which at that moment were occupied. At the end of the first act Caruso was recalled five times and then would no longer respond. Madamie Sembrich shared in these recalls.

Mrs. Carey Sent Back to Jail. Philadelphia, Nov. 29.—Mrs. Mary Carey of this city, who was arrested Tuesday night on suspicion of having caused the death of two of her children, her husband and two other persons by poison, was given a hearing before a police magistrate and committed to prison to await the action of the coroner's jury. The police officials claim Mrs. Carey held insurance policies on the lives of all those whom she is suspected of killing, and for the purpose of securing this money, which aggregated about \$1,000, the crimes were committed.

### BY THE WAYSIDE

Some newspaper men are terrible liars. In writing up a cyclone out west one of them said it turned a well inside out, a cellar upside down, moved a township line, blew the staves out of a whisky barrel and left nothing but the bungle, changed the day of the week, blew a mortgage off a farm, blew out the cracks of a fence and knocked the wind out of a politician.

Parisians in Paris. How many Parisian people born in Paris are there living in Paris at the present time? According to the last census about 36 per cent. of the total population. Paris has the smallest indigenous population of any European capital. St. Petersburg has 40 per cent., Berlin 41 per cent., Vienna 45 per cent., London 65 per cent.

IF YOU LIKE a decided touch of distinctiveness in your overcoat, then you'll admire the two Garson-Meyer Overcoats illustrated above. They are both form-fitting coats, but one has the long center vent with heavily pressed side seams, while the other has besides its long buttoned centre vent, two "make-believe" side vents that give the coat a very swagger look indeed. The coats vary in length—you may have almost any length you please. The patterns are too many to describe here—there are plenty of fine grays, and mixtures of gray, handsome herringbone effects and overplaids. And plenty of rich blacks, too.
